

**HONORS GENED LIMITED EDITION:
CLIMATE CHANGE AND CLIMATE JUSTICE**

The impacts of climate change fall disproportionately on frontline communities, including the Global South, communities of color, the poor, women, and the young, including college students. How should the impacts and burdens of climate change be distributed? How do environmental loss, damage, and danger transform issues of diversity and oppression in the 21st century? What kind of response to climate change would be fair? How much must each of us change in order to make a fair response possible? This course offers an accessible, in depth introduction to ethical problems about climate justice, with attention to environmental racism, indigenous rights, gender, age, and other aspects of diversity, and to the role of individual behavior in climate justice.

Instructor: Eugene Chislenko, chislenko@temple.edu

Office hours: Mazur Hall 750, Th 3:30-5:30pm or by appointment

Course requirements: About 50 pages of reading each week (all available for free—most on Canvas, except when web addresses are given below)
Four in-class reading quizzes (20%)
Class participation (15%)
Three 3-page reflection papers (30%)
Eight-page term paper (35%)

Course goals: This course offers an opportunity for students to:

- (1) Become familiar with ethical issues concerning climate change and climate justice in a local, national, and global context.
- (2) Better understand contemporary forms of racism and other oppressions.
- (3) Build their ability to question, develop, and defend their views on complex, interdisciplinary topics.
- (4) Build their skills and experience in communication and civic engagement.

These goals align with the GenEd program-wide competency goals of critical thinking, contextualized learning, interdisciplinary thinking, communication skills, scientific & quantitative reasoning, civic engagement, information literacy, and lifelong learning, and with the GenEd Race & Diversity area goals (<https://bulletin.temple.edu/undergraduate/general-education/gd/>).

COURSE POLICIES

Office Hours: Come to office hours often! Talking one-on-one or in small groups is one of the best ways to get a handle on the material and methods of the course. You'll probably get more out of it if you come with specific questions, but coming to talk about the issues in a more general way is fine too. If you have friends in the class, feel free to come as a small group. If you want to meet but have a schedule conflict, let me know and we can find a different time.

Quizzes: There will be four short reading quizzes, usually at the beginning of class. This is a way of keeping attendance, holding you accountable for doing the readings, and reflecting how you are doing in the course. You will not know in advance which day there will be a quiz. Each quiz will be graded as an A, B, C, D, or F (no plus or minus grades). There will also be a fifth, makeup quiz; only the best four count, so you can miss one quiz or get one F with no penalty. Your answer does not need to be perfect in every detail to get an A; if you read the assigned reading a few times and take some notes on the main ideas, you should have no trouble.

The instructions on each quiz will be as follows: "Reading quiz: Please answer the following question about the reading for today, summarizing the relevant parts of the reading." The question will be a basic question about the main ideas of the reading for that day.

Class Participation: You will get much more from the course if you participate actively in class! Active participation means showing up prepared, having done the readings more than once and coming in with questions and reactions. But it also means more than that. It means taking responsibility for the class going well for everyone, including you. That can include: pointing to an interesting passage; asking a clarificatory question; emphasizing the importance of someone else's comment; raising a problem; directing discussion in a productive direction; and making suggestions that help the class go well, either in class, in office hours, or over email.

This course will have a discussion board on Canvas. You can participate actively during class, or on Canvas, or both. You know your own learning style best; how you participate is up to you. You will receive feedback halfway through the course about your participation so far.

Plagiarism: *All* written work for the course must be your own. Be sure to cite any works you use, including web sites, books, and articles. Presenting *anyone* else's work as your own is considered plagiarism. Please follow this link to see Temple University's Policy on Student Conduct Code, which includes academic honesty: policies.temple.edu/PDF/398.pdf. The Philosophy Department

Plagiarism Policy mandates an "F" grade, and reporting to the Chair and the CLA Undergraduate Affairs Office, for plagiarized work.

Disabilities: Any student who has a need for accommodations based on the impact of a documented disability or medical condition should contact Disability Resources and Services (DRS) located in the Howard Gittis Student Center South, 4th Floor at drs@temple.edu or 215-204-1280 to request accommodations and learn more about the resources available to you. If you have a DRS accommodation letter to share with me, or you would like to discuss your accommodations, please contact me as soon as practical. I will work with you and with DRS to coordinate reasonable accommodations for all students with documented disabilities. All discussions related to your accommodations will be confidential.

Statement on Academic Freedom: Freedom to teach and freedom to learn are inseparable facets of academic freedom. The University has a policy on Student and Faculty Academic Rights and Responsibilities (Policy #03.70.02) which can be accessed at policies.temple.edu.
